

Proteolytic Enzyme Supplement

90ct - 1 Month Supply

Suggested Use: Take one (1) capsule with a glass of water 10 minutes before or during each meal.

Premium Enzyme ComplexTM is a proteolytic enzyme supplement. PECTM utilizes digestive enzymes and organic minerals to accelerate and maximize absorption of food into usable nutrients. Formulated with AstraZymeTM, a proprietary and clinically tested ingredient that has been shown to significantly improve the digestion and absorption of proteins.

- ▶ **Increases Energy**^{*}
- ▶ **Control Appetite**^{*}
- ▶ **Improve Digestion**^{*}
- ▶ **Absorb More Nutrients**^{*}

This product has been manufactured and prepared in the USA by a GMP certified facility in strict conformance with industry and governmental standards. Purity and potency guaranteed.

Supplement Facts

Serving Size 1 veggie capsule
Servings Per Container 90

Amount Per Capsule

Amylase (from Aspergillus oryzae)	6666 SKB*
Protease (from Aspergillus oryzae)	16666 HUT*
Lipase (from Rhizopus oryzae)	666 FIP*
Sucrase (from Saccharomyces cerevisiae)	500 SU*
Cellulase (from Trichoderma longibrachiatum)	125 CU*
Lactase (from Aspergillus oryzae)	500 ALU*
Maltase	500 DP*
Peppermint (Mentha x piperita) Leaf	33 mg*
Ginger (Zingiber officinale) Rhizome	33 mg*
Licorice (Glycyrrhiza glabra L.) Root	33 mg*
Betaine HCL	6 mg*
AstraZyme TM	33 mg*

* Daily Value not established.

Other ingredients: Microcrystalline Cellulose, Vegetable Capsule, Magnesium Stearate and Silica.

PECTM Premium Enzyme Complex
DIETARY SUPPLEMENT

It is said “you are what you eat” but, in reality, “you are what you digest and absorb”.

All of the food, vitamins and minerals we consume, and the hormones our bodies produce, need enzymes in order to function effectively. Enzymes also regulate metabolic activity that affect energy production and immune system function.

Clinical nutritional researchers around the world have published studies that indicate that the human body may absorb far less of the dietary nutrients we ingest than was previously understood. As we age, our body's ability to manufacture the enzymes necessary for proper nutrient breakdown and absorption can be significantly impaired. This diminishes the body's ability to benefit from the healthy foods we eat.

Premium Enzyme Complex® is a proteolytic enzyme supplement that utilizes digestive enzymes and organic minerals to accelerate and maximize absorption of food into usable nutrients. PEC® is formulated with AstraZymeTM, a proprietary and clinically tested ingredient that has been shown to

significantly improve the digestion and absorption of proteins. Studies have shown that AstraZymeTM can increase total protein absorption by as much as 41% within the first 45 minutes of digestion. PEC® remains active throughout all pH spectrums of the digestive cycle.

Using extracts from Astragalus membranaceus and Panax notoginseng, the cellular uptake (absorption) of small peptides and amino acids is also increased. This takes pressure off of the pancreas, which is responsible for producing digestive enzymes. Liver function may also be improved by decreasing the burden of removing undigested proteins and nutrients from the blood stream.

To maximize absorption of the nutrients you eat, take one PEC® capsule with a glass of water before or during each meal.

Benefits of PECTM**Digestive Balance & Immune Support**

- ▶ Increase protein absorption up to 41%
- ▶ Absorb more protein in 45 minutes
- ▶ Uses proprietary technology
- ▶ Immune System Support
